

# TOOLS & TIPS for Digital Camps

## TOOLS (what you'll need):

- The FREE Zoom App (for interactive calls with your Teaching Artist and fellow participants)
- A meeting link (sent to your email closer to session start date)
- Reliable WiFi Connection
- A calling device with video (phone/tablet/laptop/desktop)
- Headphones/Speaker (built into your device is fine!)
- Microphone (built into headphones/device is fine!)
- Camera (built into calling device is fine!)
- Basic art supplies (pencils, crayons, markers, paper etc.)

*\*if any of these things are not available to you, please [email Katie](#)! There is a possibility that we can share some of these tools from our own supply!*

## TIPS:

### How do I “get there”?

- Please aim to “arrive” in the waiting room at least 10 minutes before your session begins, so that your session starts right on time. Our time together is short!
- The ZOOM link will be sent via the email provided in your registration. Please be sure to check that inbox for regular communications in the time leading up to your camp!

### How much space do I need?

- Every participant will be working with different limitations. There is no minimum space requirement, but if space is a limitation that you're worried about, you're probably not the only one! Simply let your Teaching Artist know and they'll help you come up with a creative solution.

### When is the Finale? What is it?

- Your Finale will be on the **final day** of your session\*. Please make a note of this in your calendars! You won't want to miss out on this opportunity to celebrate all that has been created and the discoveries that have been made during this session. The Finale will likely take place over Zoom, but more information about this will be sent to you by email.

*\*Drop-in sessions ([Getting to Know...](#) and [Little Players](#)) will not have a Finale—this only applies to multi-session camps.*
